### How to get your Guest Pass?

The digital Guest Pass is automatically sent to your email address (for guests aged 6 and older) at the time of check-in or pre check-in. It includes the guest's name and period of stay, and comes in both an electronic version or as a downloadable PDF. The pass can be used as a PDF on a mobile device (smartphone) or added to your digital wallet. If you prefer a printed version or you can't access to your email, your accommodation provider can print the PDF for you upon arrival.

### Validity & obligation to validate:

The Guest Pass is valid for the **entire duration of your stay**. From 00:00 a.m. on the day of arrival until 11:59 p.m. on the day of departure.

**IMPORTANT:** The Guest Pass must be validated at the start of each journey.

**Validation** is done by scanning the QR code on the designated blue devices. A successful validation is confirmed by an "OK" on the display and an acoustic signal. Please do not hold the pass too close to the validator. For train journeys, the pass must be validated before boarding, at the station. If your train journey includes a transfer, validation is required only at the start.
